

# Java Developer

We are part of is established and profitable and present in 50+ countries. As a developer here, you'll take ownership of features and projects, working with other developers and product managers to evaluate, design, and implement from top to bottom. You'll make architecture decisions, debate them with other smart developers, implement with good specs, and help ensure that we're building clean, maintainable, intuitive applications. We work in an agile, iteration--driven way using tools like SAP Cloud Platform, Gitlab, and more. We believe in taking time to do things right, while emphasizing productivity and flexibility.

Responsibilities include:

- Develop fronted and backend Apps using Java, SAPUI5, HTML, CSS, and JavaScript on a cloud platform like SCP or WCP.
- Develop enhancements to the application using the above technologies and frameworks.
- Integrate Apps with existing Enterprise products and offerings (Employee Central, Workday, Payroll Exchange, myHRW, HRx..)
- Develop using Test-Driven Development (TDD) methodology.
- Support Bug-fixing and troubleshooting application errors and exceptions on different environments.
- Maintain existing code. Implement upgrades, patches, code releases and database changes.
- Collaborate with other engineers and product managers in requirements gathering, design and analysis, development, and quality assurance of the overall deliveries.
- Collaborate and coordinate the work with development team in Spain
- Good communication skills

Required Skills and Experience

- You have 3+ years of Java development experience
- You have 3+ years' experience architecting and building scalable web Apps with Java and Eclipse
- You have a solid understanding of the full web technology stack
- You are proficient using Git and version control
- Experience working with JavaScript is a plus.
- TDD methodology using JUNIT/Mockito/EclEmma is a plus
- You are comfortable working with a distributed/dispersed team
- Experience estimating budgets and timelines
- Experience consulting directly with clients
- Excellent written and verbal communication skills in English and Spanish
- Ability to meet deadlines
